

AI AGENTS

HKMA AI Governance

On 15 October, the HKMA introduced its ART Framework and issued supervisory guidance for responsible AI adoption. It is also exploring governance for increasingly autonomous AI agents.

 CLOUD OUTAGE

Google Cloud London Disruption

On 20 October, a power-related incident disrupted Google Cloud services in London, affecting several financial institutions.

STABLECOINS

US OCC Rule

On 21 October, the US OCC reportedly finalised significant regulations under the GENIUS Act, scheduled to take effect in January 2027

The challenge is not simply identifying new technologies.

It's understanding how their failure could translate into financial loss. At Continuum, we believe the starting point should always be the potential loss scenario, followed by appropriate controls and insurance.
