AI & AUTOMATION

MAS Agentic Money Sandbox

Singapore's MAS announced an Agentic Money Sandbox to explore AI-initiated payments and treasury activity under defined safeguards.

TOKENISED FINANCE

HKMA and Swift Interoperability Collaboration

Hong Kong's HKMA and Swift announced exploratory work on interoperability between tokenised-deposit infrastructure and international payments. This is exploratory, not a live commercial service.

CYBER INFRASTRUCTURE

CISA Known Exploited Vulnerabilities

CISA flagged active exploitation of vulnerabilities affecting privileged security and infrastructure-management products.

Continuum

The challenge is not simply adopting new technology.

It is understanding how much financial loss that technology can create before anyone intervenes.
