DIGITAL ASSETS

Binance Aftermath

Following the Binance security incident, Reuters reports that US banking supervisors contacted banks to assess potential vulnerabilities and disruption. The incident itself is not new. The wider financial-system response is.

AI & AUTOMATION

HKMA Project SAGE

Hong Kong's HKMA launched Project SAGE, focusing on agent identity, delegated authority, governance, and liability in financial services.

FINANCIAL INNOVATION:

HKMA Project Ensemble

The HKMA advanced Project Ensemble to support round-the-clock settlement in tokenised central-bank money.

Continuum

Innovation is expanding the connections between financial systems.

Risk management must keep pace with the responsibility that crosses those connections. Understand the potential loss first. Then the controls. Then the insurance.
